CLIMATE JUSTICE 101 SURT

April 23, 2024 9-230

This workshop introduces climate change science and politics, discussing how individuals can drive change in education.

- Part one covers climate reality, future warming models, and impacts on BC teachers. It highlights global inequalities in climate impact, focusing on indigenous peoples, racialized individuals, women, and the global south.
- Part two looks at school districts' response to carbon emissions and transitioning to a carbon-zero world. It explores how teachers and students can advocate for change in this area.

Upcoming Salary Increase

As part of the last Collective Agreement, our salaries will be increasing as of July 1st, 2024. We will hear in March what the actual raise will be when the BC Consumer Price Index (CPI) will be used to determine the percentage.

Here is the clause from the Provincial Agreement:

"B.1.c: Effective July 1, 2024 i. by the annualized average of BC Consumer Price Index (CPI) over twelve months starting on March 1, 2023 (Cost of Living Adjustment) to a minimum of 2.0% and a maximum of 3.0%, calculated as per B.1.9"

Additionally, effective July 1, 2024, the local salary grids are amended to provide a 0.11% increase to the top step of the salary grid.
